Subject: RE: Restoration Plan Guidelines

Hello Peggy and Monica,

I went back to my correspondence with the Biancos, which is a much more reliable source than my memory it seems. Jim forwarded a scan of the EPA letter on April 25. At that time we advised him to find an attorney. He wanted to discuss when he was back in the States so we didn't correspond again until May.

Thank you,

Aleta Powers

Subject: Restoration Plan Guidelines

Alita, as promised during our phone conversation today, attached is one of the Region 8 guidance documents for removal and restoration plans. I look forward to hearing from you after your upcoming conversation with the Biancos.
